

I have received a copy of the Rebuilding Together Montgomery County Volunteer Wellness Policy. I have read and understand the policy. If I have any questions about the policies stated I will ask a Rebuilding Together Montgomery County (RTMC) Staff member to answer them. I shall follow all of the policies stated. In addition, I realize that RTMC may change the policies stated at any time.

I understand and acknowledge that even when following RTMC Wellness policies there is still a risk for contracting COVID-19 or transmitting COVID-19 to others. I understand that failure to comply with the RTMC Wellness Policy will result in my stoppage of work at a project home.

RTMC staff members will be monitoring for compliance of safety policies and will have ultimate authority in all safety matters. I hold harmless Rebuilding Together Montgomery County's officers, directors, employees, volunteers or agents (collectively "Rebuilding Together Montgomery County) from any cause of action, claim, loss, demand, or suit arising from or related to: (1) the presence of any Rebuilding Together Montgomery County Staff or Contractor(s) on or about the Premises, (2) any services provided by any Rebuilding Together Montgomery County or Contractor(s); (3) the negligence of any Rebuilding Together Montgomery County Staff or Contractor(s); (4) any damages to personal or real property; or (5) any injuries sustained by myself, any of my family members, or any of my invitees.

Rebuilding Together Montgomery County Volunteer Wellness Policy Guidelines

Rebuilding Together Montgomery County (RTMC) prioritizes the health and safety of homeowners, contractors, volunteers, and staff. With the spread of the coronavirus or “COVID-19,” we all must remain vigilant in mitigating the outbreak and protecting one another.

In order to be safe and maintain operations, we have developed the wellness policies outlined below to be implemented throughout the organization and at all of our work sites. RTMC has also developed COVID-19 Exposure Prevention Policies for Contractors, which are available upon request. RTMC will seek to follow all applicable and relevant government recommendations and may update the above policies at any time.

I understand that I will need to sign and return a copy of this notice *or* agree to the wellness policy by registering online in order to perform volunteer activities for RTMC. In addition please note:

- RTMC may have to suspend all home repair activities if the homeowner becomes uncomfortable with the project and/or concerns with potential COVID-19 exposure.
- Homeowners authorizing home repairs are releasing RTMC, its contractors, its volunteers, its directors, and officers from any liability or claims that may arise from exposure to pathogens due to home repair activities.
- Volunteers must notify RTMC immediately if they or any other resident at their home has tested positive or has been in contact with someone that tested positive for COVID-19 within 14 days of being on an RTMC project.
- RTMC staff and contractors will maintain social distancing with homeowners to the maximum extent possible.
 - Conversations with homeowners will be limited to electronic, phone or appropriate social distanced conversations to the extent possible.
 - Homeowner has agreed to stay six feet away from any RTMC representatives (volunteers, staff or contractors) performing repairs on the home, or in a separate room from repairs being made when possible.
 - When appropriate, the homeowner has agreed to wear a face mask or covering when RTMC representative(s) are within 6 feet. When necessary RTMC will make a face covering available to ensure compliance.
 - Volunteers agree to refrain from use of homeowner facilities and will use a porta potty and hand sink if provided.

- Volunteer agrees to wear gloves and face covering at all times when on the homeowner's property and within 6 feet of any other individual associated with the RTMC project.
- Volunteers agrees to check in with volunteer coordinator before beginning repair to have temperature taken. If temperature is below 100.4 degrees Fahrenheit the volunteer may begin work following agreed upon work practices. If their temperature is elevated the volunteer will be immediately asked to leave the site. In addition, if the volunteer arrived on site in the same vehicle as other volunteers, those volunteers will also be asked to leave the site. The group will be gathered at appropriate distances and a discussion will take place to determine if additional exposures may have occurred and a decision will be made to either immediately stop the project or to continue. This decision will be made at the discretion of the RTMC site leader, Staff, and Executive Director.
- Volunteers agrees to wipe all tools after use using the RTMC provided cleaning agent(s).
- Volunteers agree to only use tools that have been properly cleaned between use and obtained from the "clean" tool area designated at the start of the project.
